## Product Details

### What is SolarPlus?

You'll save big with the SolarPlus plan. It gives you a 34% discount off our standard power rates when you pay your bill on time. Plus an additional 1% pay on time discount (35% in total) when you pay your bill by Direct Debit.

### No lock in contracts, no termination fees

Free as a bird. We don't do lock in contracts. It's free to join and free to leave anytime.

### Which rate applies to me?

Single Rate all times:

This tariff consists of a fixed daily charge, and then a flat per kWh energy rate which is the same at all times of the day or night. As such the tariff does not have a different price for peak and off peak. Although "Controlled Load" rates might apply. This tariff is the most common network tariff in Victoria.

Controlled/Dedicated load rates:

These tariffs consist of rates for "time-switch" controlled hot water services, immersion heaters, space heaters and other dedicated loads, generally controlled between 11pm and 7am.

Time Of Use (TOU):

"Time of use" tariff consists of a fixed daily rate, and different per kWh energy rates for peak times and off peak times. The peak times are generally between 7am and 11pm Monday to Friday, and all other times are off peak.

Flexible tariffs:

"Flexible tariffs" consists of a fixed daily rate, and different per kWh energy rates for peak times, off peak times, and "shoulder" times. The peak times are generally between 3pm and 9pm Monday to Friday, off peak times are generally between 10pm and 7am all week, and all other times are shoulder.

### How often will I get a bill?

Normally we will bill you on a monthly basis after a meter read or estimation.

### Electronic billing

To keep our costs, and the price you pay for power as low as possible, we prefer not to send out paper bills. Instead we normally email your bill. Paper bills are available for an additional charge.

### What is SOLAR Feed In Tariff?

The SOLAR feed in tariff is an addition to all customers with roof top solar panel, it gives a feed in credit for all solar panel generation feed into the network grid. It does not change the underlying products or price offer.

## Variation of tariffs

We may update your tariff from time to time to reflect market changes and or economic factors. In a case where we do need to review and change our pricing tariffs we will notify you in writing prior to any change.

For more details, please see our full terms and conditions at [globirdenergy.com.au/terms-and-conditions](http://globirdenergy.com.au/terms-and-conditions)

## Other fees

In addition to the applicable tariff, you may incur additional retail charges. We only charge these fees where set out on our fees page, [globirdenergy.com.au/fees](http://globirdenergy.com.au/fees).

## Eligibility

The details presented in this Price and Product Information Statement are for Victorian residential customers located in the specified distribution area and subject to verification of your meter configuration. Offer only available to new customers. Further eligibility criteria may apply.

## About this document

This price and product information statement is presented in accordance with the requirements of the Essential Services Commission (ESC) – the independent regulator of the retail energy industry in Victoria.
